

Very successful construction company specialising in fit-out and refurbishment of high market commercial properties is looking for a **Part-time Quantity Surveyor** to join their dynamic team. As a Quantity Surveyor, your role will initially be to coordinate, compile and maintain a live central library of construction rates to provide the business with accurate cost information across key trades. The scope is likely to expand and progress over time. You will closely work with the Commercial Managers.

This is a **3 day/week** role with flexible hours, and it will be ideal for a professional wanted to return to work part-time.

ROLE:

- Research and analysis of historical commercial data
- Collate commercial data into a central library for staff to access and use easily
- Maintain and manage database to ensure it is kept up to date with live information

PROFILE:

- Quantity Surveyor qualification or relevant experience
- Surveying/Construction experience preferable but not essential
- Proficient in Microsoft Excel
- Experience in data analysis
- Strong analysis and communication skills

SALARY:

Between £30k and £40k/pa according to skills and experience
