

Innovative and disruptive French group operating in various markets is looking to expand its activity in the UK, and therefore is looking for a **French speaking Senior Project Manager**. You will join a unique group, with strong values, which is dedicated to creation, equity investment or entire takeover of companies in order to make them grow and realise their long-term goal. Your role will be to implement the company in the UK, develop their strategy, develop its activities, and those of the subsidiaries of the group.

ROLE:

- Implementing the company in the UK
- Liaising with the top management on regular basis
- Managing projects on behalf of the group
- Collaborating with the management and the international team to make sure that the strategy for the UK is aligned with the group
- Developing a network with HR, finance, legal and commercial partners
- Developing the group's activities thanks to this network of partners
- Finding commercial opportunities for the holding and its French subsidiaries
- Identifying new talents and recruiting a team
- Making sure that the company is compliant at all levels
- Coordinating projects with the UK management (to be recruited) and the international team

PROFILE:

- Fluent in French and in English
- Previous experience in project management, business development, in developing networks and partnerships in the UK.
- Strong communication skills
- Good understanding of how British companies work including legal, HR, accounting
- Strong understanding of the British culture and how business is done
- Awareness of cultural differences as the group is developing in other countries

SALARY & BENEFITS:

- Between £60k and £70k basic negotiable according to experience and profile plus bonus
- Other benefits to be confirmed, these will include a pension scheme, and private medical insurance
