

International leading engineering company with a strong market share in the UK is looking for a **Senior Financial Controller** to work with the CFO. This is a key role where you will be the right arm of the CFO for the transactional operations supervising staff, and will work with the FCs based abroad. You are an experienced Financial Controller with strong technical skills and very knowledgeable in the UK accounting regulations. The role is hybrid and based in the Manchester/Blackburn area.

ROLE of the Senior Financial Controller:

- Supervising the transactions team (Accounts Payable & Accounts Receivable) ensuring accurate and timely posting of invoices, payments and receipts.
- Ensuring monthly management accounts are completed to deadlines and in accordance with adopted group policies and procedures including Balance Sheet reconciliations and Fixed Asset register.
- Liaising with other group companies to reconcile intercompany transactions and agree month end balances
- Overseeing, ensuring regulatory compliance and assisting with the preparation and submission of the company VAT, Corporation Tax and ONS and other statutory returns.
- Preparation of the annual financial statements and company lead on the external audit
- Monitoring and supporting the preparation of the rolling cashflow forecast
- Planning and managing finance project work, including working in cross functional teams as required
- Providing information and support for customer and internal/external quality audits
- Proactively identifying areas for systems progression and contribute towards a culture of continuous improvement including enhancing documentation of month-end procedures

PROFILE:

- Minimum 5 years' experience in Practice
- Qualified CIMA, ACCA or ACA with minimum 5 years' PQE as a Financial Controller, Finance Manager, Management Accountant, or Auditor in a medium size or large corporate, ideally in engineering.
- Technically strong in IFRS, financial and statutory reporting and excellent academics.
- Strong mathematical, excel, time management and organization skills.
- Experience of BI tools is beneficial.
- Knowledge of IFS ERP an advantage
- Ability to work confidently under pressure and prioritise workload in a fast-moving environment.
- Excellent problem-solving ability and experience analysing and interpreting large data sets.
- Good verbal and written communication skills.
- Proven team player and line manager.
- Ability to manage people remotely.
